for the Market — tho in other respects I feel Confident of endeing satisfaction — and in my Advice shall endeavor to be Correct and induce into Error —

I Lisle must be arrived before this at N. York where you were probably in Him — I don't know whether He communicated to you his intentions in going for the Continent report says it was to solicit the Consulate of this place — he never mentioned it to Me — if such were his intentions, it would have been fair for to have mentioned it, as I certainly have more claim in case Mr. Doble does not come here — If Mr. I. L has applyed I am inclined to believe its through the Interest of Mr Melvill & Mr Dobel and that it is not Mr. D's intention to come here — will you make some inquiry into this & inform Me Mr. L has a right to ask so has every other person equal with my self — but there are Circumstances relative to the appointment & the Correspondence of Mr. D. that should have lead Mr. L. to communicate — If Mr. L applys under a declaration that Mr. D. will not come here I shall think it strange if the Appointment is not offered Me — and feel anxious to hear from Lisle — Who I wrote to some time since not knowing of his intentions had I at the time I should have asked the question — [illegible] Me with a free Cover & and hoping to hear frequently from you I am with perfect regard Dear Sir

Your Ffd & Hbl Sr

John Mitchell
