but have had one little unpleasant circumstance - I have hardly
my fever - my appetite bitter - but my unconquerable cough
abates but very little particularly in the morning, and I have
much weakness to contend with, and occasionally a blister
it is my first wish that you could return to me for if I ever
recover I think it will be a slow business - I hope I shall
be able to send for you or that some opportunity will offer
that you can come - the country is now very beautifull; and
I hope I shall have some thankfulness for you - the children
are much as you left them - all join in love that can
speak - my affectionate regards to Mr Alsop and
the children your truly affectionate friend

love to all good friends Eliza Wolcott

Mr Gawrich has not come yet
