if the amount shall be less the quantity is easily reduced
in the same proportion. The prices mentioned are
drawn from the last quotations received.
We hope this will suffice for your information, but
shall be happy to give you any additional
elucidation in our power. We have now still
to furnish you with the Expences attending the Coppering
of a Ship. — a Vessel of 160 Tons burthen will
want about 250 to 260 Sheets of Copper, at about 12 lb
each Sheet is 5520 lb makes 478 Ton the 280 lb ℔ ℥ 613.2.
3/8 Copper nails to each sheet is at 1380 £ 122/6 ℔ 184.7.8.
for Paper and Bays and all other expences incident
the shipping Sheet again we reckon at ... 1900
£ 3297.8. 274.7.15.
at 20%
Total, £ 7361.1.
Commission 2% 147.0.
£ 7508.5.
is the total Expence of Coppering a Ship of 160 Tons burthen { at 32/ £ 625.13.9.
We have only yet to observe that the Expence for a large
ship does not increase in the same proportion with its
size, for a Vessel of 320 Tons, would not by fair cast
double the money, as not double the quantity of Copper
