gratifyer to hear. I beg you to present my best wishes & sincere respects to him. — I have rec'd lately two new minerals, one the bracewite from France & the other a new variety of tourmalin from Sweden. Both these I recognise in some of my unnamed american minerals. I will forward them to you in the course of a week or two. I have rec'd two Vols of the Journal des mines & when bound will send them to you. The other Vols I will [illegible] I shall want them for a few months, also the large work in 4 Vols fol. on fossils. —

yours truly G Gibbs
