Wm. Gibbs ere this - he will doubtless have told you of our interview - before he went off for Newport and York he appeared to be desirous of having copies of the several documents I sent you - for himself - As I concluded however he would have access to those in your possession I thought not advisable to multiply writing - until he should signify his wish on his return.

I shall be much obliged by a short line from you - merely to allow me to know whether you have received the enclosures & am respectfully

Yr Mo Obd Servant
