New York Dec. 6 1800

My Dear Sir

I have rec.d your two Letters of Nov 30th and Dec.r 2d.— The annual accounts for 1791. & 1793. will I doubt not be found to be obtainable from some of those members of Congress who were during those years.— I will do what is in my power to find them for you.

I send you the first part of Phocion, the second, I have not by me, to procure it for you.— if I recollect right it was printed by M.r Young of Philad.a I think.

The documents for which I referred you to my Friend M.r Nourse, were prepared by him in 1789 or 1790. for a committee of Congress, on the Representation of Rob.t Morris Esq.r formerly Superintendant of Finance.— In the collection will be found the Expences of the War in each year.— the relative contributions of the different States in Militia & enlisted Troops.— & if M.r Nourse, will be so good as to add to it, the amount of the accounts passed to the Credit of each of the States, in the settlement with the States.— you will find in it, much of that kind of information, which you are desirous of collecting.
