Boston Sept 28. 1818.

Dear Sir

It has been noticed to me that among the public congratulations & acknowledgments that Capt Hall has received, there has been none from the place where they would be the most welcome, — his native state. — My partiality for your state leads me to mention this to you as a friend. —

I have rec'd the "Geological Society's transactions" which will bring on with me in Nov —

Yours truly

C Gibbs
