Newport March 20th 1833

Geo. Gibbs Esq

Dear Sir

It is in contemplation to build another Episcopal Church in this place, there being a number of families who cannot procure Pews in the old. It is confidently expected that sufficient funds will be raised for [illegible] the building &c. I am informed that you own part of the lot opposite the Bannister Estate, being on the South side of Pelham Street, known by the name of Townsends Street, they wish to know if you are disposed to sell it for so laudable a purpose, what the size of it is & what would be the lowest price you would sell it for — Your reply to these enquiries will oblige

Your respectfull friend

Samuel Whitehorne
