Dear Father & Mother

I received yours containing my bond on Monday & went directly to Boston to have it signed and also to [illegible] your determination she was much disappointed that you could not come on. She left Boston this morning I believe. Last evening she came over here and took me to Mr Farrar's and also to see Dr Higginson & Mrs Susan Channing. Wolcott is very well and so is Aunt Sarah. She got some cotton and will have two pair of drawers made at home. I have had no other clothes made as Mr. Rogers has not procured the cloth on account of its not being good — as a law student I can wear what I please so that any thing which suits the season will be very acceptable — We have had several frosty and the nights are very cold —

Mr. Channing goes away for a day or two on business and perhaps I shall stay at his house during the night as Mrs. Channing is unwell and may want to send out — Dr Wm Channing is still sick
