and we have had much snow and some sleighing as well as skating on the Lahn.
Now it is thawing again and sloppy beyond expression. On the whole I consider the climate
of Germany detestable. I have been once to Liebig's house to tea but spent a dull evening
the professor doing all the talking and allowing no one to have an opinion of his own.
Still he improves somewhat on acquaintance and can be agreeable when he chooses.

I must finish this off now or I shall miss the Steamer. I hope you have received my
letters regularly. Love to all at home at Point Isabel and at Boston. Do good night
Wolcott

I forgot to say that I am well though rather thin. I have a slight illness which kept me 3 days
in my room — [illegible] &c — nothing serious and no doctor's bills.
