got, and to which I was an heir - it still retains the name of Gibbs' Hill.

It would seem from the Genealogical Pamphlet that I am a descendant from Sir Henry Gibbs of Hemmington and his daughter Temple daughter of Sir Thomas Temple - one of whose sons settled at Barbados - My Bermuda ancestor, must either have been the Thomas Gibbs heir of Hemmington, or his son, or a son of John, who resided at Barbados or of one of the elder brothers, and possibly the missing heir of Hemmington - His marriage with Miss Hunt would determine which -

At any rate I am heir of the Thomas Gibbs who settled at Bermuda.

Should this investigation answer no other purpose, it is at least satisfactory to know that our ancestors are not plebeian -
