I am probably fixed for the winter at last I have been advised to hold on. I wish things would have allowed me to go to Mexico at the beginning of the war. It is now too late for me all accounts.

NOV 25

I write this in my office. Your mother & Laura will write in a day or two. Do you get our letters?

I understand that all the captains are ordered Home. Capt Henry goes in the middle of November and I shall write as soon by him. Steve has been asking after you. He is forever put us a proposal. Remember me to Hamilton, Palmer and the rest and all love to yourself.
