My Dear Sir

Hartford May 25. 1825

The Corporation of Yale College, had a meeting in the Senate ~~in the~~ Chamber last evening, when resolutions were passed, authorizing their prudential Committee to enter into a contract with you, for transporting your cabinet of Minerals to the College with ample ~~acknowledgments~~ for your ~~generous~~ ~~& magnificent~~ benefactions. Mr Prosper Wilkinson made a very candid & liberal statement, in relation to your conduct &, informed the Board that Ten Thousand Dollars had been subscribed in a few days at New Haven & that ~~more~~ larger sums were expected. The arrangement may be considered as settled in a manner very honourable to you.

I had the pleasure of seeing George, on Sunday with Bay and Stevens, on their way to Northampton. George is a fine manly boy and much improved.

I am here and as well as I can expect to be, but I think I am growing somewhat weaker. Our General Assembly are tranquil and good tempered, but inclined to projects, many of which receive their impulse from New York.
