London 20th Oct 1851.

My Dear Cousin

I have all your letters in due Course the last stating that you were waiting the arrival of the Game Cock at San Francisco & would leave in to for Canton. Now I hope you have arrived in good health — and have found matters in a measure comfortable — Your letters from the Pacific have all given me satisfaction — and I have every hopes that you will be successfull in China, you will remember that I told you of a Mr Blaney that I sent out as W Bro Canton Brokerage, by this mail I hear from him that he has left — quarrelled with Mr Sellwemann — who he accuses of not being an honest man — one not looking after my interests &c &c. I need not go into particulars, all is, have your eyes wide open, act coolly and with judgment & upon your own judgment —
