New York July. 4. 26
1826

Dr Sir

On my return from Northampton I found a Steam boat going and as it appeared the only chance of returning in that mode I was obliged to set off without seeing you as it relates to the payments it would be both troublesome & expensive to draw them in New Haven but the Bank there can easily arrange for the payment here. I saw Mr Pitkin last evg. who mentioned that he should have in a few days some money to pay which he had collected here & that his father had sent him some papers relative to the business. I shall see him again on Monday on the subject. —

Have you read the translation of the Hungarian Catalogue - I want much to have it in order to finish the Col. which I will finish you. —

Yours truly G Gibbs

B Silliman Esqr
