Boston June 7. 1827

Col. Geo. Gibbs,

Dr Sir,

Your favour of the 12 Inst. came duly to hand at the time it was received Mr. Bradish was here on the business of a Settlement of his claims on the Estate of your late Father. — after several days deliberation he agreed to take Eight Thousand Dollars, and has executed such papers as will fully discharge all demands he has or may have on the Estate, those papers are now in my possession & when they shall be approved by your Brother & Sisters & yourself and such papers executed as will carry the same into Effect a final Settlement will be made with Mr Bradish. — I should have written you before but your Brother agreed to consult you himself, & I gave him a copy of the papers which no doubt he has sent you. —

I sincerely hope the Settlement will now be made at least with Mr Bradish he appears very desirous to have the Settlement made & I think on fair & equitable
