year than ever. I was sorry to hear that Lucius's health was not so good this summer. I hope that she will pick up, when she gets to the fine bracing air of Connecticut where we hear that she is going to spend the summer with the chicks. I am a little that you are taking Lucius's business in hand during his absence, so I shall have to draw on you I suppose in his name. I have I believe some $500 in his hands from the interest on $11000 in U. S. bonds, and the Boston dividend besides for July. I shall probably draw $100 by the 1st inst for some clothes from Pettus & Co. 530 Broadway my tailors. As soon as the July dividend comes in please send me an acct of debit and credit from Jan 1st 68. so that I can know how I stand with the firm did Lucius tell you whether he had paid up my premium in the Albion Life Assurance Co from March to Sept. i.e. on $5000, at $146 per annum?
