ask Mr Parker what provision is made to secure mother's annuity of $500 on the close of the trust - Is it a lien on the whole fund, or on our share; ~~or~~ on real or personal estate? or how does it stand? As I understood him, he considers that his trust ceases instantly on the death of the parties, that all that remains for him to do is to divide the money & personals in his hands & leave the real estate to be fought for by the heirs. How would such a division of the personal property, not in cash, be made - by a sale of the stocks, notes &c. by the trustee & their conversion into cash? Please consult with Mr Parker at once & let me know your & his opinion about these matters & the settlement of the suit when you have time the latter should be decided one way or another at once -

With love to Josephine

Always yours
George Gibbs

Nov. 13th -

Just as I was about to seal this comes another & still more extraordinary letter from the Governor - which I enclose. I wish we could have a topographical survey made of the two beach farms in connection with the Honeyman hill in order to see how they can be laid out to most advantage. Any way there should be no roads laid out without previous survey or until we are clear of the Whitwell suit.
