Hotel d'Angleterre
(Englischof) [1880]
Ems-les-Bains.
Aug. 11th.

My Dear Mother —

I received a nice letter from you yesterday, and also one from Minnie, which I will answer soon.

You see that we are still in Ems, in fact, I expect that we shall be here off-and-on until the first of next month. Cousin Virgy is taking the cure for her throat trouble, Cousin Theo. also takes the water for his stomach.

The waters here are considered very good for all throat troubles. The treatment consists in taking a certain number (about 24) of mineral baths, and drinking so many pints of the water a day. The first glass is to be taken at seven o'clock
