Newport Septr 14th

Dear Sister The enclosed is the best I have been able to do with the record of my life. There are no good printers here in Newport and one must get on as well as he can with them. I think the enclosed sample is perfectly free from mistakes. But on the 2d page "College of Physicians and Surgeons" is put between two ( ) and then should of course be no period after the word "Chemistry". There are easily corrected. Please let me know how you like the sample I send you for examination. Are the pages large enough? They are
