Boston March 15. 1831

Colo George Gibbs,

Dear Sir,

Your favour of the 14th Feby came duly to hand I have caused the Copy of the Account stated at the Probate office to be copied which shall be sent you, with some callings at my [illegible] to see how they will answer. —

I have this day [illegible]

your Brother William, making an offer for the three Mile lot of Two thousand Dollars, he writes me that he has made the communication to you direct, I know your opinion of the value of this lot & your unwillingness to have it sold to a Stranger, as your Brothers estate is so near & the value might be effected very much by the use which might be made of this ground I am of the opinion it would be better to sell to him rather than keep it any longer without income — on this subjit however you are better qualified to act than I am — when you have made up your mind please to write me. —

Colo Jaques who made application for the Jno Hills Farm last Summer for a Stock Farm has been for some time past making great exertions to raise a Company to enable him to purchase the Farm, the price named was Twenty five thousand Dollars it was considered very high — a few days since he informed me that he thought he should be able to make the purchase — at the time he made the application I wrote you on the subjit, your answer was

P.6.
