Sunday.

18

Dear Sir —

I recd. yours on Friday. I thought that I had mentioned to you that I had persuaded them at Cambridge to get up an American Mer. Cabinet in the Style of that of N York. & I shall endeavour to do the same at Phil.a —

I hope you will be able to do the same shortly at New Haven as it would be extremely favorable to your Institution & also to the country. — I think it would be popular in your state & when they see you make additional efforts they will be led to keep pace with you. — I believe I have a Copy of Navy. if so please send it to Dr Nemt Northampton. He wanted a Collection of models but as I could not procure any I recomd. the plates of Navy. — Will you send me Accums Cryst. if you have my set.? I shall visit you as soon as my mother returns which will be in Aug. without fail. —

in haste Yours truly

E Gibbs
