Litchfield 30 June 18 2

Dear L.

George is well. his eruption is much better and he has become so amazingly fond of me that I am sometimes obliged to decline the pleasure of his society during the time Papa & John was absent he eat all his meals with me at the table setting on an Encyclopaeda in a chair and he now hollows most amazingly at the very intimation of dinner without his presence Mrs Syzer has gone to Church this afternoon and he is with me which is a great assistance to my writing his eruption took much lighter and no new spots have come out Dr Buel called to see him on Friday and said he was much better than when he saw him last — I understand there is to be the wonderful Phænomena of a Ball here on the 4th of July — Love to all

Yours &c

P.S.
