burn your fingers —

Best love to Mother Laura & the boys
Slap Frank's chops (gently) for me — I hope
to have great pleasure myself in the last
of July — Good bye George —

at night — some very beautiful & rare — you
will also catch many in a warm evening after
a thunderstorm with a light — do not fear to
get several duplicates especially of beetles as I will
exchange them for you — look under stones. Pierce
them through the right wing case & hold them over
a smoky lamp. moths & butterflies you will
kill best with nitrid acid (aqua fortis) but beat
