George Gibbs Esq:

Newport May 8. 1833

Sir, your favor in reply to Mr Saml. Whitehorne respecting the Sale of your Lot South of the Banisters estate, has been received — should have replied to your answer sooner, but not having our financieal concerns in that train to warrant an answer in full, have caused the delay. Mr Saml. Whitehorne Chairman of the Committee of Finance, I am now on a journey to Washington & West Point, left here a week since, was to have replied to your answer — not receiving an Answer from him or you on the Subject, & the committee waiting to reply to other communications, have thought proper to address you, requesting your reply immediately — what your lowest price will be, to have your Money secured with Interest, not to exceed a year, we do think your first Price too high, please name the lowest — and you shall receive an reply immediately

Respectfully yours,

Henry Potter, one of the committee.
