Dear Colonel –

I am afraid you will think me very uncivil in my compliance with your request to find the Article in the Monitor you desired – I called to tell you that I write two or three others had hunted in vain for it. but you had just left the city & I omitted to write word, not knowing whether you had returned to Hartford or gone further east –

Will you do us the favor to take tea with us this evg if you have no better engagement – I want you to see the Governor's bust –

Yours very truly & respectfully
George Gibbs
