Parsonage - Clifton Hampden
nr Abingdon Jan 4/5 — 48

Dear Sir In the absence of my Brother
in Law Mr George Gibbs of Bristol (who left
England in September last for the South of
Italy and the interior — I am desired
abroad a full twelvemonth) I supply to you
letter to him of the 16th October — and I
have the pleasure of saying that Mr Smith
has searched the registers at St Ivorne, and
will call & inform you of the resettlement
return to New York —

In case they may be of any service to you
I subjoin the following statements, the first
of which I took off myself last summer
from a mural monument in brass in the
Parish Church of St James, Bristol, and
the 3 last are copies of register of burial
two of them of the Henry & Anne — the aldermans
& his wife in the monument — & the 3d of a
Henry ~~[illegible]~~ of nearly a century earlier which I
procured from the same Parish — and
ascertained at the same time that there
were no other records of that name in that
Parish either on monument or in register
For curiosity I had previously looked carefully
through a book which casually fell into my
hands — entitled — Bristol the city of Churches
