the North fork of the Nahchess to its source, across the summit to Green river which it descends to its mouth & then follows White river ~~for a considerable distance~~ ~~below~~ down to the plains, where it leaves it, crossing the Puyallup to the Stillacoom plains." All these streams run in very deep bottoms cut through the clay and gravel of this adjacent country and ~~have~~ with steep

~~"The [illegible] of considerable permanency of the~~ Swamish is met at the ~~mouth~~ communication of three bluffs ~~Speaking of the source of the Snoqualmoo, say "at the main Yakama pass."~~ a large body of water breaks from it through a ~~marshy~~ tract of low country & enters the Puyallup near its mouth. This canal called by the Indians "Stuck," is about twenty yards wide, deep and rapid."

Speaking of the source of the Snoqualmoo say "at the main Yakama pass."

Strike out the sentence in speaking of the routes of communication "Thus White river &c - down to discharged by the latter. And"
