Col Chilton is extremely anxious for the position of Brigadier General, he is of the U.S. If he is the man you think with a word from you to the Cabinet may be of service to him - Some one of the appointments has just fallen to Sackett -

Mrs Mother has shown me Colyer's letter - I think he will lose no opportunity of reaching home - We must make a strong effort to have him set right and advanced - It is a melancholy story he tells of Lyon's cowardice & treachery; I only wonder that affairs did not result as the Spy - his report letter is not very coherent on this point -

His position at Leavenworth when he reaches there may not be very secure - the Conservatives may again arrest him which I presume would entirely relieve him from his parole -

I expect to hear from you on Monday in reply to my letter as to my own military views -

Seward has never slept a quiet night since the duty which he played Cobden in my case and every night now he finds the hours at his beds exposing his fortunes back -

Very faithfully Yours John Charles Frémont
