The Bishop must have the city the force or about he must depend for an advance — If he makes more for the defence of Nashville while he moves he would do well to call for the fancy regiments Louisville, Nashville, Buffalo &c who have had experience as Zouaves and could also would doubtless respond to a temporary call — I should think he could have 10,000 besides 15,000 from Philadelphia alone on short notice —

I presume there will be three blows struck at the South, Newbern, Chicora, & Pensacola — the movements are kept pretty close however —

The money market is quite easy, and there is a speculative feeling upon prices up — the demand note bill to work charm — The popular subscriptions so far go very well and I hope will continue — as the present note the Banks will have no trouble but with a serious falling off in subscriptions in securing an enchanted market the matter would be changed — the question of the day is how great and how long is the market at home for the 7 3/10's notes —

The Missouri alarm is dying away — Thope Price is on his last legs —

Truly Yours Jay Cooke

Regards to Dr Buckley — John Sherman Senator

on right.
