doubt the recognition of the Rebels — We will
then declare a non intercourse bill with
Great Britain and stop their Soldiers, a letter
may bar suchlike to prevent or furnish recognition.
I am hard at work in a Military way and
can pay my respects through the movements upon
open and close columns and form line with
considerable ease. Hardee is watched like there
is a little book called "Cooper" which works famously.
"Halleck" I am studying with a great deal of
interest — It is a clear statement of sound principles.
The 30.000.000 are now paid and 10.000.000
on the second — The public have taken 30.000.000
and are now taking 2.000.000 per week, will not
therefore have absorbed the first 30 before Dec 15th
They will then have paid 30 more of which none will
have been old and will have to decide whether
they will pay 30.000.000 more — all this
depends on success: if we have one they can
not in my opinion. Faithfully Yours, John A. Dix Major Gen.
