I am very much afraid that
Uncle Williams attacks will be
followed up before long by another
perhaps fatal one. At his age
and with a constitution so much
shattered there cannot be much
hope.

I am sorry that I cant be
with you D[ea]r on the Lord's.
I will try however I be in Ipswich
York for a month about the
middle of August. I am very
glad the visit to Newport has
done you so much good. I am
taking Congress water I some
prescription the surgeon General
gave me for the cash.
