intend to follow it up. It is too early to consider the journey to Leavenworth, but if nothing prevents I will go out there with you later in the season, & take my trip while you stay & take care of, or be taken care of by, Peggy & the boys.

As to the papers you mention, it is hardly worth while to send them on now. If you were to close the house it would be better as well as the time by express in my room.

I can't find the night shirt I suppose I must have left them at the hotels. As to the watch. I got one of the American watches, which is now being "let up" & is to be warranted, for $100. I don't think they would have been much less of this quality in New York.

With love to all

George
