mights are uncertain.
We have been all through the beautiful English Lake District, including lakes Windermere, Grasmere, Derwent-water, Ulls water, &c. The lakes are small but exceedingly beautiful.
We have been blessed with beautiful weather the whole of our journey so far. We meet with continually who report bad weather on all sides, but as soon as we come to the place it clears up. I am enjoying myself exceedingly, & I think I will have seen as much, when I get home, in three months, as many tourists do in as many years.
We leave Liverpool for my homeward voyage on the 7th. Oct. by the White Star S.S. "Britannic". I will have to say good bye now,
With Your Happy Son
George.
