Friday Eve.

My dear Frank.

Tyma Aunt Sarah left a bright & fine day, and I have met a snow storm the last Wednesday afternoon. She was much better but not as well as when she came on. I think however that she enjoyed her visit here. She received your letter from Norfolk — She took on a great quantity of baggage and a tame dog. to replace your gun. your letter for Alfred Bory was sent to him & he will answer immediately. And your advice regarding Bryan and likewise the book with the kindness of the Rubens to you. I felt sorry that you did not go to the Observatory when allowed by Mr Wilkinson to do so. And am extremely obliged for his attention to you. Charles Rubens is one of the best fellows I know & good and Brother and his Sisters are nice girls. It is not worth while to get a coat for them yet I should like you to see an Assembly at any rate. The compliment was agreeable If Laura will come in I shall be willing to bring her and any other girls to one of the balls. — Mr Wilkinson in his letter pleased me because he seemed pleased with you. Frost has left for St Louis
